ASK TO SPEAK TO NAMED RESPONDENT

Good morning/afternoon/evening. I am from Burke Marketing Research. You probably remember the interview you gave us a few weeks ago. We are now carrying out the second round of interviewing so may I come in and ask you a few questions please?

The traffic noise related questions have been moved to card

FURTHER EXPLANATION - USE ONLY IF NECESSARY (AT ANY POINT)

You may think that some of the questions are similar to those we asked you before. This is because we want to find out whether or not, and in what ways, people's behaviour varies at different times of the year and whether or not their opinions change. So please bear with us and answer all of the questions.

ASK TO SPEAK TO NAMED RESPONDENT

Good morning/afternoon/evening. I am from Burke Marketing Research. You probably remember the interview you gave us a few weeks ago. We are now carrying out the second round of interviewing so may I come in and ask you a few questions please?

The traffic noise related questions have been circled on card

FURTHER EXPLANATION - USE ONLY IF NECESSARY (AT ANY POINT)

You may think that some of the questions are similar to those we asked you before. This is because we want to find out whether or not, and in what ways, people's behaviour varies at different times of the year and whether or not their opinions change. So please bear with us and answer all of the questions.

'Energy Use' study
METHODOLOGICAL NOTES
Graham (panel no. 2500)
(01727 2000)

1. Purpose

This study was concerned with traffic noise and the objective was to check reactions to noise over time. The study involved conducting interviews with the same people at different points in time. The same questions were asked at each point so the replies from each round of the survey could be examined for differences. The object of the survey was carefully concealed both from respondents and interviewers, both of whom were led to believe that the survey was concerned with Energy Use in the context of the home and living environment.

The survey sites, the fieldwork dates and the addresses at which interviews were to be obtained were selected by Atkins Research & Development, who also prepared the questionnaire. Burke Marketing Research were responsible only for the conduct of fieldwork, printing questionnaires and editing and punching the questionnaires when completed

2. Method

The original survey plan was for one panel of four sites, each to receive four interviews during the winter of 1977/8 and a further panel of two sites, each to receive two interviews during the summer of 1978. The plan was to obtain a final sample of sixty people at each site, equally divided between men and women (housewives or heads of household) who had completed all four interviews. In order to achieve this we proposed to obtain around one hundred first round interviews at each site.

The four sites selected for the winter 1977/8 phase were

- Eastern Avenue, Ilford, Essex
- Coombe Lane, Raynes Park, SW20
- Galliards Road, Edmonton, N9
- Hoslyn Road, Merton Park, SW19

B.H.

Fieldwork on the first stage began, following a delay due to last minute questionnaire changes, in the middle of December, 1977. It proved impossible to complete interviewing before Christmas and fieldwork was not completed until January, 1978. In the event response was much poorer than anticipated. The final numbers of interviews obtained was 254 in the four areas.

In view of this short fall, it was decided to add two further sites when conducting the second round of interviewing with the above four. These sites were

Wickham Avenue, Sutton
Kingston Road, Epsom

These two sites also had four rounds of interviewing

The two sites used for the 'summer rounds' were

Kingston By Pass, New Malden
Vivian Avenue, Wembley

Each received two rounds of interviewing

3. Fieldwork Dates

At each stage a period of 2-3 weeks was allowed for fieldwork, to maximise the opportunity to recontact the same individuals interviewed at each stage (no substitutes were taken). The fieldwork dates were as follows:

on tape *not on*

<u>Questionnaire</u>	'Winter Sites'		'Summer Sites'

Round 3 2a, 2b	March 78	April/May 78	
Round 4 2a, 2b	April/May 78	June 78	

1/1/78

4. Response

The results of our initial (i.e. Round 1) contacts at each of the eight sites were as follows:

	Coombe Lane	Hoslyn Road	Eastern Avenue	Galliards Road	Wickham Avenue	Kingston Road	Kingston By Pass	Vivia Ave
Addresses issued	125	110	141	192	123	112	120	138
Interviews completed	48	67	62	77	60	50	73	70

The number of completed interviews obtained at each round of interviewing was as follows

	Coombe Lane	Hoslyn Road	Eastern Avenue	Galliards Road	Wickham Avenue	Kingston Road	Kingston By Pass	Vivia Ave
Round 1	48	67	62	77	60	50	73	70
Round 2	32	42	43	56	56	46	60	52
Round 3	32	40	35	47	52	40		
Round 4	31	35	32	44	40	33		

5. Questionnaire

The questionnaire was varied slightly for subsequent rounds of the survey to minimise repetition of questions about the home

6 Draw

Respondents in the four-round sites who completed all four interviews were entered in a draw, for a first prize of £40.00 and three runner up prizes of £10.00, as an incentive to complete the four rounds.
